(4) Earnings Attributable to Liberty Media Corporation Stockholders Per Common Share

Basic earnings (loss) per common share ("EPS") is computed by dividing net earnings (loss) by the weighted average number of common shares outstanding ("WASO") for the period. Diluted EPS presents the dilutive effect on a per share basis of potential common shares as if they had been converted at the beginning of the periods presented, including any necessary adjustments to earnings (loss) attributable to shareholders.

The basic and diluted EPS calculations are based on the following weighted average outstanding shares of common stock.

	Three months ended March 31,	
	2021 (a)	2020
	numbers of shares in millions	
Basic WASO	52	51
Potentially dilutive shares	9	10
Diluted WASO (b)	61	61

- (a) Potentially dilutive shares are excluded from the computation of diluted EPS during periods in which losses are reported since the result would be antidilutive.
- (b) Prior to the reattribution, the number of notional Liberty Braves shares representing the Formula One Group's intergroup interest in the Braves Group was 9,084,940. A portion of this intergroup interest was reattributed to the Liberty SiriusXM Group on April 22, 2020. The number of notional shares representing the intergroup interest in the Braves Group held by the Formula One Group is 6,792,903 and the number of notional shares representing the intergroup interest in the Braves Group held by the Liberty SiriusXM Group is 2,292,037 as of March 31, 2021.

The intergroup interests are quasi-equity interests which are not represented by outstanding shares of common stock; rather, the Formula One Group and the Liberty SiriusXM Group have attributed values in the Braves Group which are generally stated in terms of a number of shares of stock issuable to the Formula One Group and the Liberty SiriusXM Group with respect to the Liberty SiriusXM Group.

(5) Assets and Liabilities Measured at Fair Value

For assets and liabilities required to be reported at fair value, GAAP provides a hierarchy that prioritizes inputs to valuation techniques used to measure fair value into three broad levels. Level 1 inputs are quoted market prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs, other than quoted market prices included within Level 1, that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. Liberty does not have any assets or liabilities required to be measured at fair value considered to be Level 3.

Liberty's assets and liabilities measured at fair value are as follows:

Description	Fair Value Measurements at March 31, 2021			Fair Value Measurements at December 31, 2020		
	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)

Realized and Unrealized Gains (Losses) on Financial Instruments, net

Realized and unrealized gains (losses) on financial instruments, net are comprised of changes in the fair value of the following:

	Three months ended	
	March 31,	
	2021	2020
	amounts in millions	
Debt and equity securities	\$ 49	(135)
Debt measured at fair value (a)	(113)	544
Change in fair value of bond hedges (b)	13	(323)
Other derivatives	2	(85)
	<u>\$ (49)</u>	<u>1</u>

- (a) The Company elected to account for its exchangeable senior debentures and cash convertible notes using the fair value option. Changes in the fair value of the exchangeable senior debentures and cash convertible notes recognized in the condensed consolidated statements of operations are primarily due to market factors primarily driven by changes in the fair value of the underlying shares into which the debt is exchangeable. The Company isolates the portion of the unrealized gain (loss) attributable to changes in the instrument specific credit risk and recognizes such amount in other comprehensive earnings (loss). The change in the fair value of the exchangeable senior debentures and cash convertible notes attributable to changes in the instrument specific credit risk was a loss of \$60 million and a gain of \$275 million for the three months ended March 31, 2021 and 2020, respectively, and the cumulative change since issuance was a gain of \$114 million as of March 31, 2021.
- (b) Contemporaneously with the issuance of the Convertible Notes, Liberty entered into privately negotiated cash convertible note hedges, which are expected to offset potential cash payments Liberty would be required to make in excess of the principal amount of the Convertible Notes, upon conversion of the notes. The bond hedges are marked to market based on the trading price of underlying Series A Liberty SiriusXM, Liberty Braves and Liberty Formula One securities and other observable market data as the significant inputs (Level 2). See note 8 for additional discussion of the bond hedges.

SoundCloud

In February 2020, Sirius XM Holdings completed a \$75 million investment in Series G Membership Units of SoundCloud Holdings, LLC (“SoundCloud”). The investment in SoundCloud is accounted for as an equity method investment as Sirius XM Holdings does not have the ability to direct the most significant activities that impact SoundCloud’s economic performance.

In addition to Sirius XM Holdings’ investment in SoundCloud, Pandora has an agreement with SoundCloud to be its exclusive U.S. ad sales representative. Through this arrangement, Pandora offers advertisers the ability to execute campaigns in the U.S. across the Pandora and SoundCloud listening platforms. Sirius XM Holdings recorded revenue share expense related to this agreement of \$13 million and \$12 million during the three months ended March 31, 2021 and 2020, respectively. Sirius XM Holdings also had related party liabilities of \$20 million as of March 31, 2021 related to this agreement.

Consolidated Liberty	\$ 2,254	2,013

Live Nation's revenue was \$291 million and \$1,366 million during the three months ended March 31, 2021 and 2020, respectively.

Our subsidiaries' customers generally pay for services in advance of the performance obligation and therefore these prepayments are recorded as deferred revenue. The deferred revenue is recognized as revenue in our unaudited condensed consolidated statement of operations as the services are provided. Changes in the contract liability balance for Sirius XM Holdings during the three months ended March 31, 2021 were not materially impacted by other factors. The opening and closing balances for our deferred revenue related to Formula 1 and Braves Holdings for the three months ended March 31, 2021 were approximately \$349 million and \$620 million, respectively. The primary cause for the increase related to the receipt of cash from our customers in advance of satisfying our performance obligations.

Significant portions of the transaction prices for Formula 1 and Braves Holdings are related to undelivered performance obligations that are under contractual arrangements that extend beyond one year. The Company anticipates recognizing revenue from the delivery of such performance obligations of approximately \$9 billion from and after

We hold an ownership interest in Live Nation, which is accounted for as an equity method investment at March 31, 2021. Live Nation is considered the world's leading live entertainment company. As of December 31, 2020, Live Nation met the Company's reportable segment threshold for equity method affiliates due to significant losses driven by COVID-19.

Our "Corporate and Other" category includes our consolidated subsidiary, Braves Holdings, LLC ("Braves Holdings") and corporate expenses. Braves Holdings owns the Atlanta Braves Major League Baseball Club ("ANLBC"), certain of the Atlanta Braves' minor league clubs and certain assets and liabilities associated with ANLBC's stadium and mixed use development proc;

approximate 3.7% and 11.1% intergroup interests, respectively, in the Braves Group as of March 31, 2021. As of March 31, 2021, the Braves Group has cash and cash equivalents of approximately \$181 million.

The term "Formula One Group" does not represent a separate legal entity, rather it represents those businesses, assets and liabilities that have been attributed to that group. As of March 31, 2021, the Formula One Group is primarily comprised of all of the businesses, assets and liabilities of Liberty, other than those specifically attributed to the Liberty SiriusXM Group or the Braves Group, including Liberty's interests in Formula 1 and Liberty Media Acquisition Corporation, an approximate 11.1% intergroup interest in the Braves Group, Liberty's 1% Cash Convertible Notes due 2023 and Liberty's 2.25% Exchangeable Senior Debentures due 2046. The Liberty SiriusXM Group retains an approximate 2.2% intergroup interest in the Formula One Group as of March 31, 2021. In addition, as of March 31, 2021, the Formula One Group has an asset related to the call spread with the Liberty SiriusXM Group. The Formula One Group has cash and cash equivalents of approximately \$1,783 million as of March 31, 2021, which includes \$429 million of subsidiary cash.

In December 2019, Chinese officials reported a novel coronavirus outbreak. COVID-19 has since spread internationally. On March 11, 2020, the World Health Organization assessed COVID-19 as a global pandemic, causing many countries throughout the world to take aggressive actions, including imposing travel restrictions and stay-at-home orders, closing public attractions and restaurants, and mandating social distancing practices. As a result, the start of the 2020 Formula 1 race calendar and the MLB season were delayed until the beginning of July 2020 and end of July 2020, respectively. In addition, in mid-March 2020, Live Nation suspended all large-scale live entertainment events due to COVID-19. The 2021 regular baseball season is expected to be comprised of approximately 160 games. Formula 1 has scheduled 23 Events in 2021. These businesses may continue to be precluded from holding events with fans in attendance, or may only be permitted to have a limited number of fans in attendance, for an undetermined period of time, thereby reducing revenue associated with fan attendance. It is also unclear whether, and to what extent, COVID-19 concerns will impact the use of and/or demand for the entertainment, events and services provided by these businesses and demand for sponsorship and advertising assets, even after the restrictions are lifted. In many cases, the impact of cancelled events, closed venues and reduced attendance will substantially decrease our revenue. Due to these revenue reductions, these businesses have looked to reduce expenses, but may not be able to reduce expenses to the same degree as our decline in revenue, which is expected to adversely affect our results of operations and cash flow.

Revenue. Our consolidated revenue increased \$241 million for the three months ended March 31, 2021, as compared to the corresponding period in the prior year. The increase was driven by increases in revenue for Formula 1 and Sirius XM Holdings, partially offset by a decrease in revenue for Braves Holdings. See "Results of Operations—Businesses" below for a more complete discussion of the results of operations of Sirius XM Holdings, Formula 1 and Braves Holdings.

Operating income (loss). Our consolidated operating income decreased \$104 million for the three months ended March 31, 2021, as compared to the corresponding period in the prior year. The decrease for the three months ended March 31, 2021 was primarily driven by a decrease of \$214 million in Sirius XM Holdings operating results, partially offset by improvements of \$104 million and \$6 million in Formula 1 and Braves Holdings operating results, respectively. See "Results of Operations—Businesses" below for a more complete discussion of the results of operations of Sirius XM Holdings, Formula 1 and Braves Holdings.

Stock-based compensation. Stock-based compensation includes compensation related to (1) options and stock appreciation rights for shares of our common stock that are granted to certain of our officers and employees, (2) options, restricted stock awards, restricted stock units and other stock-based awards granted to officers, employees and certain third parties of our subsidiaries, Sirius XM Holdings and Formula 1, (3) phantom stock appreciation rights granted to officers and employees of our subsidiary, Braves Holdings, pursuant to private equity plans and (4) amortization of restricted stock and performance-based restricted stock unit grants.

We recorded \$63 million and \$67 million of stock-based compensation expense for the three months ended March 31, 2021 and 2020, respectively. The decrease in stock compensation expense is primarily due to a decrease at Sirius XM Holdings. As of March 31, 2021, the total unrecognized compensation cost related to unvested Liberty equity awards was approximately \$75 million. Such amount will be recognized in our condensed consolidated statements of operations over a weighted average period of approximately 1.9 years. Additionally, as of March 31, 2021, the total unrecognized compensation cost related to unvested Sirius XM Holdings stock options and restricted stock units was \$467 million. The Sirius XM Holdings unrecognized compensation cost will be recognized in our condensed consolidated statements of operations over a weighted average period of approximately 2.3 years.

Adjusted OIBDA. To provide investors with additional information regarding our financial results, we also disclose Adjusted OIBDA, which is a non-GAAP financial measure. We define Adjusted OIBDA as operating income (loss) plus depreciation and amortization, stock-based compensation, separately reported litigation settlements, restructuring, acquisition and other related costs and impairment charges. Our chief operating decision maker and management team use this measure of performance in conjunction with other measures to evaluate our businesses and make decisions about allocating resources among our businesses. We believe this is an important indicator of the operational strength and performance of our businesses by identifying those items that are not directly a reflection of each business' performance or indicative of ongoing business trends. In addition, this measure allows us to view operating results, perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Accordingly, Adjusted OIBDA should be considered in addition to, but not as a substitute for, operating income, net income, cash flow provided by operating activities and other measures of financial performance prepared in accordance with U.S. generally accepted accounting principles. The following table provides a reconciliation of Operating income (loss) to Adjusted OIBDA:

	Three months ended	
	March 31,	
	2021	2020
	amounts in millions	
Operating income (loss)	\$ 142	246
Depreciation and amortization	264	267
Stock-based compensation	63	67
Impairment, restructuring and acquisition costs	245	—
Legal reserves	—	(16)
Adjusted OIBDA	\$ 714	564

Consolidated Adjusted OIBDA increased \$150 million for the three months ended March 31, 2021, as compared to the corresponding period in the prior year. The increase in Adjusted OIBDA for the three months ended March 31, 2021 was primarily due to increases of \$98 million, \$43 million and \$5 million in Form8

To date, the COVID-19 pandemic has not affected Sirius XM Holdings' capital and financial resources, including its liquidity position. In addition, the COVID-19 pandemic has not impacted Sirius XM Holdings' ability to access its traditional funding sources. The pandemic has not increased Sirius XM Holdings' costs of, or reduced its access to, capital under its revolving credit facility or in the debt capital markets, and Sirius XM Holdings does not believe it is reasonably likely to do so in the near-term. In addition, Sirius XM Holdings does not believe that the pandemic will affect its ongoing ability to meet the covenants in its debt instruments, including under its revolving credit facility.

Formula 1's uses of cash are expected to be debt service payments and operating expenses. Formula 1 has historically funded its uses of cash with cash provided by operations. Formula 1's operating cash flows have been, and may continue to be, adversely impacted by COVID-19, which may require Formula 1 to fund its projected uses of cash with other sources of liquidity.

Braves Holdings' uses of cash are expected to be expenditures related to the mixed-use development, debt service payments and operating expenses. Liberty expects Braves Holdings to fund its projected uses of cash with cash on hand, cash provided by operations and through the borrowings under construction loans. Braves Holdings' operating cash flows have been, and may continue to be, adversely impacted by COVID-19, which may require Braves Holdings to fund its projected uses of cash with other sources of liquidity.

We believe that the available sources of liquidity are sufficient to cover our projected future uses of cash.

Sirius XM Holdings. Sirius XM Holdings operates two complementary audio entertainment businesses, Sirius XM and Pandora.

Sirius XM features music, sports, entertainment, comedy, talk, news, traffic and weather channels and other content, as well as podcasts and infotainment services, in the United States on a subscription fee basis. Sirius XM's premier content bundles include live, curated and certain exclusive and on demand programming. The Sirius XM service is distributed through its two proprietary satellite radio systems and streamed via applications for mobile devices, home devices and other consumer electronic equipment. Satellite radios are primarily distributed through automakers, retailers and Sirius XM's website. The Sirius XM service is also available through its user interface, called "360L," which combines Sirius XM's satellite and streaming services into a single, cohesive in-vehicle entertainment experience.

The primary source of revenue for the Sirius XM business is subscription fees, with most of its customers subscribing to monthly, quarterly, semi-annual or annual plans. Sirius XM also derives revenue from advertising on select non-music channels, direct sales of its satellite radios and accessories, and other ancillary services. As of March 31, 2021, the Sirius XM business had approximately 34.5 million subscribers.

In addition to its audio entertainment businesses, Sirius XM provides connected vehicle services to several automakers. These services are designed to enhance the driving experience and address the challenges of driving.

Pandora subscriber revenue includes fees charged for Pandora Plus and Pandora Premium subscriptions. Pandora subscriber revenue increased 2% during the three months ended March 31, 2021, as compared to the corresponding period in the prior year primarily driven by the inclusion of Stitcher.

Pandora advertising revenue is generated primarily from audio, display and video advertising from on-platform and off-platform advertising. Pandora advertising revenue increased 29% during the three months ended March 31, 2021, as compared to the corresponding period in the prior year. The increase was primarily due to growth in Pandora-owned and operated revenue from higher sell-through and pricing, the inclusion of Stitcher and increased revenue from AdsWizz.

Sirius XM Cost of services includes revenue share and royalties, programming and content costs, customer service and billing expenses and other ancillary costs associated with providing the satellite radio service.

Revenue Share and Royalties include royalties for transmitting content, including streaming royalties, as well as automaker, content provider and advertising revenue share. Revenue share and royalties increased 3% for the three months ended March 31, 2021 as compared to the corresponding period in the prior year. The increase was due to overall greater revenue subject to music royalties and revenue share.

Programming and Content includes costs to acquire, create, promote and produce content. Programming and content costs increased 8% for the three months ended March 31, 2021 as compared to the corresponding period in the prior year driven by higher content licensing costs.

Customer Service and Billing includes costs associated with the operation and management of Sirius XM's infrastructure.

Other costs increased 25% during the three months ended March 31, 2021 as compared to the corresponding period in the prior year due to higher streaming costs.

Subscriber acquisition costs are costs only associated with Sirius XM's satellite radio and connected vehicle services and include hardware subsidies paid to radio manufacturers, distributors and automakers; subsidies paid for chips and carrier fees. Other content include
